RE: Virtual Meeting for Walnut Creek Pike/Bell Station Intersection Improvement (PIC-CR7-2.30, PID 113732)

Dear Neighbor,

The Pickaway County Engineer's Department would like to invite you to participate in a virtual meeting to learn more about the proposed intersection improvement project. Public input is an important part of the project development process and provides valuable feedback that helps guide decision-making through all phases of development. The purpose of this project is to improve safety at the intersection of Walnut Creek Pike and Bell Station Road. Traffic will be detoured during construction, however access to all existing driveways will be maintained.

Land acquisition from properties adjacent to the project will be needed in order for there to be sufficient right-of-way to construct this safety improvement.

The Pickaway County Engineer's Department is seeking public input regarding this proposed project. We hope that you can join us for the upcoming virtual public meeting where we will explain the overall project, alternatives that have been considered, present potential impacts, answer your questions, and receive your input. Project staff can be reached through any of the methods listed below to answer questions.

VIRTUAL PUBLIC MEETING  
October 14, 2021 @ 12:00 P.M.  
Project information: <https://publicinput.com/H6101>

For more information on the proposed project, please visit [transportation.ohio.gov](https://transportation.ohio.gov) and search for the project by PID Number: PID 113732

All materials presented during the virtual meeting are available on the meeting link above. If you do not have internet access and would like these materials mailed to you, please contact the individual listed below. Included with this letter is a comment form that can be mailed back to the Pickaway County Engineer's Office, or you may leave comments on the project websites mentioned above. Comments may also be submitted via email, phone, or mail to:
