In the Matter of County Auditor, Melissa Betz and End of Month Reports:

Melissa Betz, County Auditor met with the Commissioner to give an update of the end-of-month reports for November 2018. The month ended with $8,401,431.86 and is running strong. Revenues: conveyance fees still continue to increase. Year to date receipts almost total $900,000. This has exceeded our 2018 estimates. There have been several $1M plus sales during 2018. Taking those large sales out of the equation we are estimating $700,000 in revenue for 2019. Sales tax was less in November 2018 than it was in November 2017. In estimating how, our cash balance may be at the end of the year, Mrs. Betz said she would be better able to estimate that once we see December sales tax numbers. We should exceed sales tax revenue for the year though once December sales tax is received. Mrs. Betz also discussed the increase of real estate tax revenue because of valuation increases from the new station that Rockies Express recently built in Walnut Township and also additional value from AEP. The overall public utility value has increased over $151M. The Pickaway County Budget Commission met with Bob Hively and Mike Pelcic of PCBDD to discuss lowering their millage because of the additional value. They will
reduce a .5 mill levy to zero. Commissioner Henson asked what Circleville’s value is compared to the entire county. The valuation of the City for the 2018 pay 2019 tax year is $216,796,970 which is 14% of the total valuation of the County.

Discussion was brought up of the levy the Health Department would like to place on the ballot. If a .5 mill levy would pass, the amount of revenue is estimated at $789,872.22. If a .75 mill levy would pass, the amount of revenue is estimated at $1,184,763.33.

Mrs. Betz provided the Commissioners with the proposal she received from Tyler Technologies to update to Ias World. The change would include the data being held in the Cloud and not on the county server. The anticipated conversion date per the contract would not be until the fourth quarter of 2019. The yearly maintenance cost would increase to $108,260 per year for three years. This is approximately an additional $40,000 a year. These fees are paid out of the Data Processing line item. Expenditures in this line item also include maintenance contracts, in addition to the Auditor, the Treasurer, Clerk of Courts and one maintenance contract for the Sheriff. Commissioner Stewart suggested that an increase of $40,000 be made to the data line item to include the additional maintenance cost.
